DSV and CargoWise™ edi Sign Global Deal *DSV Air and Sea Division to Roll Out ediEnterprise Globally*

MILTON KEYNES, UK, November 6, 2007 — CargoWise™ edi, a leading provider of integrated international supply chain logistics management systems, has been selected to implement a global enterprise solution for DSV Air & Sea, the multinational freight forwarding division of DSV A/S.

A true global logistics player, DSV A/S has 19,000 employees in more than 50 countries with a worldwide annual turnover of 4.8 billion euro.

DSV Air & Sea Division has an annual turnover of 1.2 billion euro and employs almost 2,700 people, operating at the leading edge of product development within the transport industry and is expanding its position among the leading and most profitable transport businesses in Europe.

CargoWise edi will be supplying DSV Air and Sea Division with its *ediEnterprise* system, a highly modular enterprise-class system designed to automate and streamline the operations and management of engaged forwarding, customs brokerage, contract warehousing and international logistics systems. The integration of its front and back office systems will be global, and begins with its operations in Canada and Germany.

Jorgen Moeller, President of DSV Air & Sea said: "We went through a rigorous selection process, involving all aspects of our business, and we chose to implement CargoWise *ediEnterprise*. CargoWise edi stands out so strongly because it has a modern, technologically superior platform and delivers deep operational global logistics management capabilities. Our direct experience with the company and the product in our Asian business removed a lot of risks, showed the promises were real, and pointed to the long-term relationship this deal has initiated."

Richard White, CEO of CargoWise edi commented: "When we were invited to bid on a single global integrated system for forwarding, customs and contract logistics, we felt DSV and CargoWise edi would be a perfect match, not only because this is the very core of our product skill, but also because our staff operates 24/7 within the EU, U.S. and Asia. DSV is already a great customer of CargoWise edi with more than 800 users in 14 countries throughout Asia. This agreement, when complete, will add up to an additional 2,000 or more DSV users over the next few years."

ABOUT CARGOWISE™ EDI

CargoWise edi provides solutions for international logistics providers, focused on supply chain execution capability in an integrated ERP-like globally capable system. It is a world-leading provider of high value software solutions and services for the freight forwarding, NVOCC, customs brokerage, warehouse, container freight station, ships agency, cartage and trucking industries.
